Contents

Synthesis and Characterization

Structural investigation of b.c.c. 304 stainless steel 1
J. P. Eymery, G. Laplanche, M. Cahoreau and M. F. Denanot (Poitiers, France)

Structure of thin fluoride films deposited on amorphous substrates 7
U. Kaiser, N. Kaiser, P. Weißbrodt, U. Mademann, E. Hacker and H. Müller (Jena, Germany)

Growth, composition and structure of plasma-deposited siloxane and silazane 17
S. Sahli (Constantine, Algeria), Y. Segui (Toulouse, France), S. Hadj Moussa and M. A. Djouadi (Constantine, Algeria)

Surfaces, Interfaces and Colloidal Behaviour

Comparative analysis of interdiffusion in some thin film metal couples at room temperature 26
Ž. Marinković and V. Simić (Belgrade, Yugoslavia)

Metallurgical, Protective and Hard Layers

Effect of a titanium underlayer on the corrosion behaviour of physically vapour deposited titanium nitride films 31
Y. Massiani, A. Medjahed, P. Gravier and J. P. Crousier (Marseille, France)

Some effects of the plasma nitriding process on layer properties 38
M. B. Karamiş (Kayseri, Turkey)

Electron and ion radiation damage of a-C:H films detected by energy loss spectroscopy of reflected and transmitted electrons 48
A. Fuchs, K. Jung, H. Ehrhardt (Kaiserslautern, Germany) I. Muhling and K. Breuer (Chemnitz, Germany)

R.f. plasma-assisted chemical vapour deposition of diamond-like carbon: physical and mechanical properties 56
E. H. A. Dekempeneer, R. Jacobs, J. Smeets, J. Meneve, L. Eersels (Mol, Belgium), B. Blanpain, J. Roos (Heverlee, Belgium) and D. J. Oostra (Eindhoven, Netherlands)

Electronics, Optics and Opto-electronics

Low-temperature photoluminescence of short-period GaAs/AlAs superlattices 62
V. G. Litovchenko, A. I. Bercha, D. V. Korbutyak, V. I. Gavrilenko (Kiev, Ukraine) and K. Ploog (Stuttgart, Germany)

High frequency $C-V$ investigation of metal–oxide–semiconductor capacitors prepared by low temperature subatmospheric pressure chemical vapour deposition of SiO_2 films on silicon substrates 68
C. Pavelescu, J. P. McVittie, C. Chang, K. C. Saraswat (Stanford, CA, USA) and J. Y. Leong (Santa Clara, CA, USA)

The effect of oxygen on the electrical characteristics of triclinic lead phthalocyanine 75
A. Ahmad and R. A. Collins (Lancaster, UK)

The effect of silicon on the structure of beryllium films 83
A. R. Berry and C. W. Nordin (Golden, CO, USA)

R.f. magnetron deposition of calcium fluoride 87
J. G. Cook, G. H. Yousefi, S. R. Das and D. F. Mitchell (Ottawa, Ont., Canada)

Preparation and microstructure of WS_2 thin films 91
M. Genut, L. Margulis, G. Hodes and R. Tenne (Rehovot, Israel)

Growth of high quality ZnSe epitaxial layers on transparent substrates CaF_2 by atmospheric pressure metallo-organic chenical vapour deposition 98
Z. P. Guan, G. H. Fan, S. H. Song and X. W. Fan (Changchun, China)

Alterations in optical properties of materials covered with oxide films during laser heating in gases 102
V. S. Aksenov, A. P. Belikov, V. D. Borman, A. V. Khmelev, Yu. G. Korushonkov, I. V. Milov, A. A. Prokofyev and D. I. Talysin (Moscow, Russian Federation)

Ohmic behaviour of Au/WSiN/(AuGeNi)–n-GaAs systems 108
U. Merkel, E. Nebauer and M. Mai (Berlin, Germany)

Structure of vapor-deposited yttria and zirconia thin films 113
G. G. Long, D. R. Black, A. Feldman, E. N. Farabaugh, R. D. Spal, D. K. Tanaka and Z. Zhang (Gaithersburg, MD, USA)

Transport properties: conductivity, thermoelectric power and Hall constant of Au–Cr thin film alloys obtained by controlled coevaporation 120
L. Lechevallier, J. le Bas, G. Richon and J. Gouault (Mont Saint Aignan, France)

Epitaxial growth of monoclinic and cubic ZrO_2 on Si(100) without prior removal of the native SiO_2 125
A. Lubig, Ch. Buchal, D. Guggi, C. L. Jia (Jülich, Germany) and B. Stritzker (Augsburg, Germany)

Preparation of thin polycrystalline films of cuprous iodide and photoelectrochemical dye-sensitization 129
K. Tennakone, S. Punchihewa, W. C. B. Kiridena, U. S. Ketipearachchi and S. Senadeera (Kandy, Sri Lanka)

Characterization of high quality c axis oriented ZnO thin films grown by metal organic chemical vapor deposition using zinc acetate as source material 133
J. S. Kim, H. A. Marzouk, P. J. Reucroft and C. E. Hamrin, Jr. (Lexington, KY, USA)

Some anomalous optical and electrical anomalous properties of $M/MoO_3/M$ sandwich structure 138
Y. F. Yuan and O. S. Heavens (York, UK)

Electrical transport in *n*-type bismuth modified a-$Ge_{20}Se_{80}$ and a-As_2Se_3 thin films 146
S. Kumar, S. C. Kashyap and K. L. Chopra (New Delhi, India)

Magnetics and Magneto-optics

Structural and magnetic properties of iron–tin thin films 152
P. H. Dionisio, A. Vasquez, B. Hallouche, D. H. Mosca, Jr., S. R. Teixeira, W. H. Schreiner (Porto Alegre, RS, Brazil) and A. A. Pasa (Rio de Janeiro, RJ, Brazil)

Superconductivity

Magnetic flux relaxation in $YBa_2Cu_3O_{7-x}$ thin film: thermal or athermal 156
S. Vitta, M. A. Stan, J. D. Warner and S. A. Alterovitz (Cleveland, OH, USA)

Langmuir–Blodgett, Biological and Related Films

Enhancement of the second-order hyperpolarizability of a stilbene dye by molecular interactions 161
M. E. Lippitsch, S. Draxler and E. Koller (Graz, Austria)

Photoinduced variations of the internal electric field in Langmuir–Blodgett films with azo dye monolayer 167
S. P. Palto, M. I. Barnik, V. A. Khavrichev, N. N. Davydova and S. G. Yudin (Moscow, Russian Federation)

Interference second harmonic generation investigation of the chromophore orientation of hemicyanine dye molecules in a Langmuir–Blodgett monolayer 174
X. Liu, L. Liu, X. Lu, J. Zheng, W. Wang and Y. Fang (Shanghai, China)

Stark effect in hole-burning spectra of dye-doped Langmuir–Blodgett films 178
J. Bernard, H. Talon, M. Orrit, (Talence, France), D. Möbius (Gottingen, Germany) and R. I. Personov (Moscow, Russian Federation)

Thin Film Devices, Sensors and Actuators

Copper-doped SnO_2 thin films for PH_3 detection 187
T. Ratcheva, I. Stambolova and K. Konstantinov (Sofia, Bulgaria)

Condensed Matter Film Behaviour

Theoretical expressions for secondary electron emission from metal oxide films as a function of measurable variables 193
K. Yassin, A. Seidman and N. Croitoru (Ramat-Aviv, Israel)

Announcements 199
